Luisa – I think an FTP site would help convey the documents to us as quickly as possible. In addition to me and Steve, please also include copies to Tom Kenney, also with the Office of Regional Counsel, at kenney.thomas@epa.gov. Thank you, Jacquie

Steve,

As Mary mentioned, the HASP was delivered to your office on 10/28 and the QAPP was delivered on 10/30. We can send additional hard copies of the HASP and QAPP to you and also include copies to Jacque Clark. Also, we can include the information on an FTP site so you can receive the information more quickly. Please let me know how you would like to receive additional copies of the documents.

Thanks,

Luisa Price

Luisa

Could you help Steve track down these documents?

Mary,

I checked my in box and do not see the documents. Please send to me and Jacque Clark so I can send to our technical team for review. I will have comment to you by the end of next week. When are you planning to go in the field to begin sampling?

Steve Faryan

Hi Steve

We sent the QAPP on 10/30 and the HASP I think was sent on 10/29.

Luisa – If my dates are wrong, please correct.

Also we did geophysical work last week on 10/30. We just received results and are in the process of reviewing them.

Subject: QAPP and HASP

Mary,

I have been in the field in Wedron for the past 3 weeks. Did you send me the QAPP and HASP for the investigation work at the former Standard Oil Bulk Terminal in Wedron.

When is Stantec planning the next field work. When do you expect that I will see the results of the geophysical work.

Thanks,

Steve Faryan
